1953-54 SEASON

Price List for the Trade Only

We solicit your orders for citrus and deciduous trees. Years of experience enable us to grow trees which we believe to be unique.

Our Southern Grown trees are proven varieties and will give equal satisfaction in all localities. However, we believe retail orders shipped particularly in Southern California and other warm sections, will find them superior to imported stock.

Our locally grown trees tend to leaf out later than imported trees, thus assisting the retailer in a longer selling season. This naturally reduces losses from replanting and unsold trees, and lessens customers' complaints.

The greatest care is exercised in the selection of soil, foodwood and every precaution taken to produce and deliver with the tree to maturity.

The prices quoted are intended primarily for retail nurserymen who require small quantities for resale. For those desiring large quantities

PLEASE ORDER IN MULTIPLES OF 5 & 10 OF EACH VARIETY

3 FIGS TO THE PINT THOMPSON FIG TREE

GIVES YOU MORE FOR YOUR MONEY AND GARDEN SPACE
HERE IS WHY:

1. ITS AMAZING SIZE—3 Figs Fill a Pint
2. NO SUGAR NEEDED—It Is Nectar-Sweet.
3. BEARS 2 TO 4 HEAVY CROPS EVERY YEAR.
4. WILL BEAR ITS FIRST CROP 6 MONTHS AFTER PLANTING.
5. GROWS AS MUCH AS 20 FEET ACROSS IN 3 YEARS. Or may be cut back every year and kept low.
6. PERFECT FOR CANNING. The large, dark purple fruit peels completely like a banana to a snowy white undercoat. No sugar required. Its crisp, strawberry-like flesh makes a delightful attractive and appetizing pack.

Each tree carries a **green tag** giving detailed planting and cultural instructions.

3 sizes for your selection: 3-4 ft., \$2.50, 4-5 ft., \$3.00, 5-6 ft., \$3.50.
50% off to the trade.

THERE'S A REASON

For the enormous popularity of the Thompson Fig today. The "3 to a Pint" Thompson Fig is California's tastiest and biggest selling fig tree. It grows and produces equally well in the hot interior regions and the coastal areas. One of the amazing features is that it will grow and bear successfully, right up against the ocean front, in spite of wind, fog and cool summers.

The Thompson Fig is as nearly everbearing as a fig can be. From frostless areas we get reports of heavy crops of ripe figs as late as the first week in January!

You will never be satisfied with an ordinary fig after you have **tasted** the THOMPSON!

Not Genuine Without the Certified Green Tag.

Place your order now for immediate delivery.
